BOTANICAL ACTIVES

PLANT EXTRACTS

Sulphate Free

What are sulphates?

This widely used cleansing agents are perfectly safe for use on the skin which are used in many skin and hair cleansing products.

Why don't we use them?

Sulphates can cause some skin irritation and aggravate skin in sensitive individuals , as well as stripping skin of natural oils.

What are we using instead?

In Herbalife SKIN Soothing Aloe Cleanser, Polishing Citrus Cleanser and Instant Reveal Berry Scrub are sulphate-free. Instead of sulphates, we use gentle apple and coconut derived cleansing agents.
